Graduation Rates

Federal Graduation Rate (FGR)

Proportion of first-year, full-time student athletes who entered the institution on athletics aid and graduate from the institution within six years.

Graduation Success Rate (GSR)

GSR includes student-athletes in federal cohort, and adds transfer students and midyear enrollees.

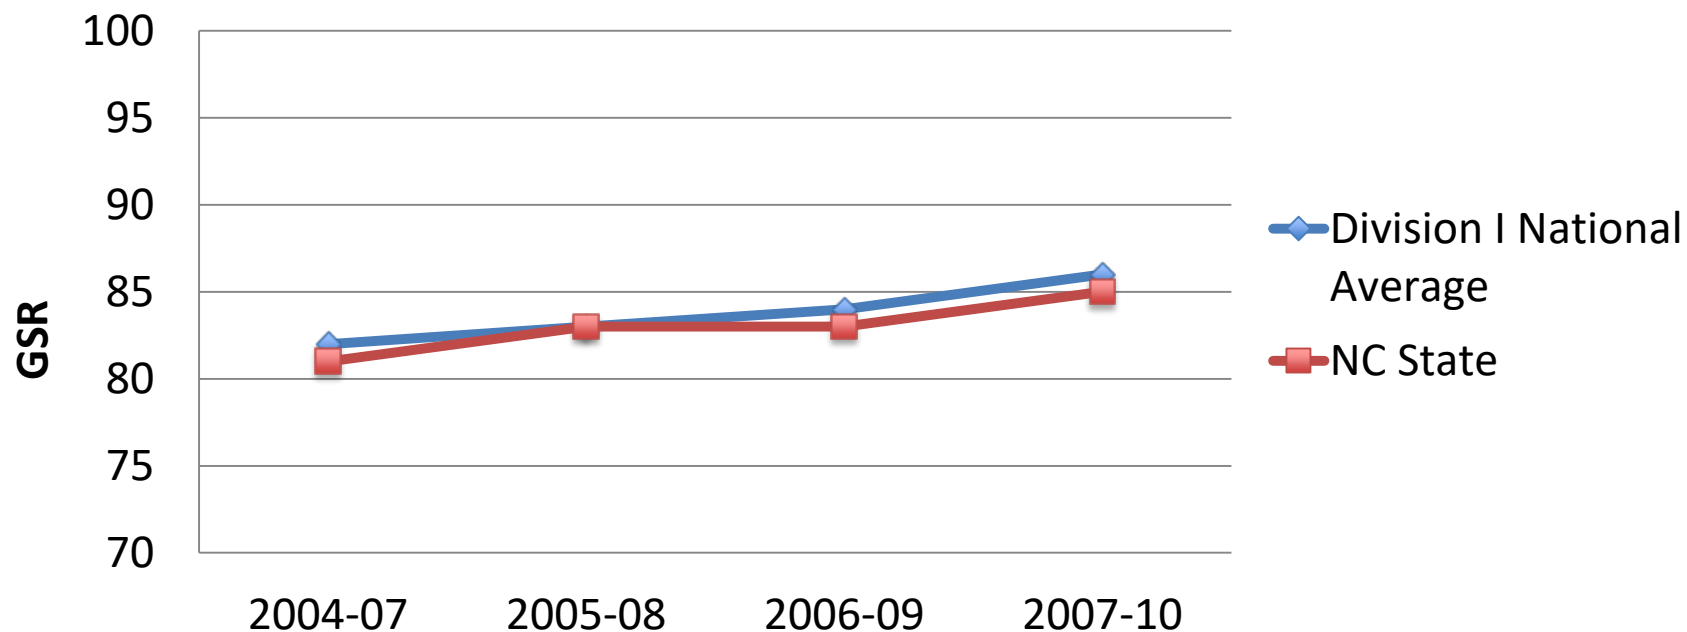

Student athletes who leave an institution while in good academic standing, before exhausting athletics eligibility, are removed from the cohort of their initial institution and added to cohort at institution where they transfer.

Academic Progress Rate (APR)

Academic Progress Rate

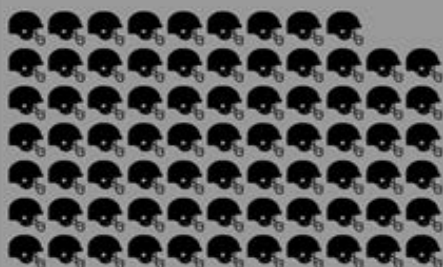

- Team-based metric that tracks the eligibility and retention of each student-athlete for each academic term
- The APR is calculated as follows:
 - Each student-athlete receiving athletically related financial aid earns one point for staying in school and one point for being academically eligible.
 - A team's total points earned are divided by points possible and then multiplied by 1,000 to equal the team's Academic Progress Rate.
 - In addition to a team's current-year APR, its rolling four-year APR is also used to determine accountability.

HOW IS APR CALCULATED?

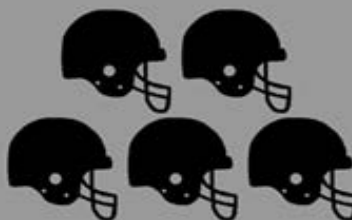

Hypothetical Division I Bowl Subdivision Football Team (85 scholarships)

Two points per term are possible per scholarship student-athlete. The team loses one point per term if a student-athlete is academically ineligible and one point if the student-athlete leaves the school.

FALL SEMESTER OUTCOMES

75 players finish the term academically eligible and are retained for the spring semester or graduate

5 players leave the school while academically eligible

3 players are retained for the spring semester but are academically ineligible

2 players leave the school while academically ineligible
