

**Leda Lunardi**  
**Professor**  
**Electrical and Computer Engineering**  
**College of Engineering**

Leda Lunardi has been a professor since 2003 in Electrical and Computer Engineering Department at North Carolina State University in Raleigh, NC. Her research is on photonic and electronic devices for display applications. She is an IEEE Fellow. At the ECE Department she is the chair the UG research committee, dedicated to increase the number of students discovering new opportunities. She is a concerned and committed faculty member that has served on several department, college and university committees. In her previous tenure as Faculty Senator with David Aspnes she championed the Ombuds position creation.
