

Personnel Policy Committee Meeting Minutes

April 13, 2021

- Met with [Joni Lancaster](#) about standing comm selections @4pm
- Discussion of pandemic support requests sent by NC State's AAUP chapter
 - All faculty need to be included
 - Request #1:
 - There did not seem to be general support for flipping the default from “request extension” to “request not to use extension”
 - Concern about dossier being evaluated more harshly since “more” time
 - Some faculty (working from home without distractions) may have been more productive
 - Others want more justification
 - Request #3: There did seem to be general support for this
 - Request #4:
 - Need clarification on the definition of “children” (e.g. under 18, only elementary/middle school)?
 - There are other caretaking needs (e.g. adult children with disabilities, aging parents)
 - Can we look at the results of COVID survey to see if there is support for these requests?
