Goal 1: Empower students for a lifetime of success and impact

NC State graduates . . . will be entrepreneurial, independent and inclusive thinkers, strong in their disciplines and experienced in interdisciplinary collaboration, prepared to contribute impactfully in a diverse, global society.

Goal 6: Be recognized as the leading university for innovative partnerships, entrepreneurial thinking and applied problem-solving.

At NC State, . . . we recognize that many of society's toughest problems can only be solved through powerful multi-disciplinary partnerships and an entrepreneurial approach.

But Why Entrepreneurship?

As environmental turbulence increases org structures transition from hierarchical to organic. Spans of control widens – necessitating employees understand how all parts work together. Entrepreneurship teaches how all the parts work together

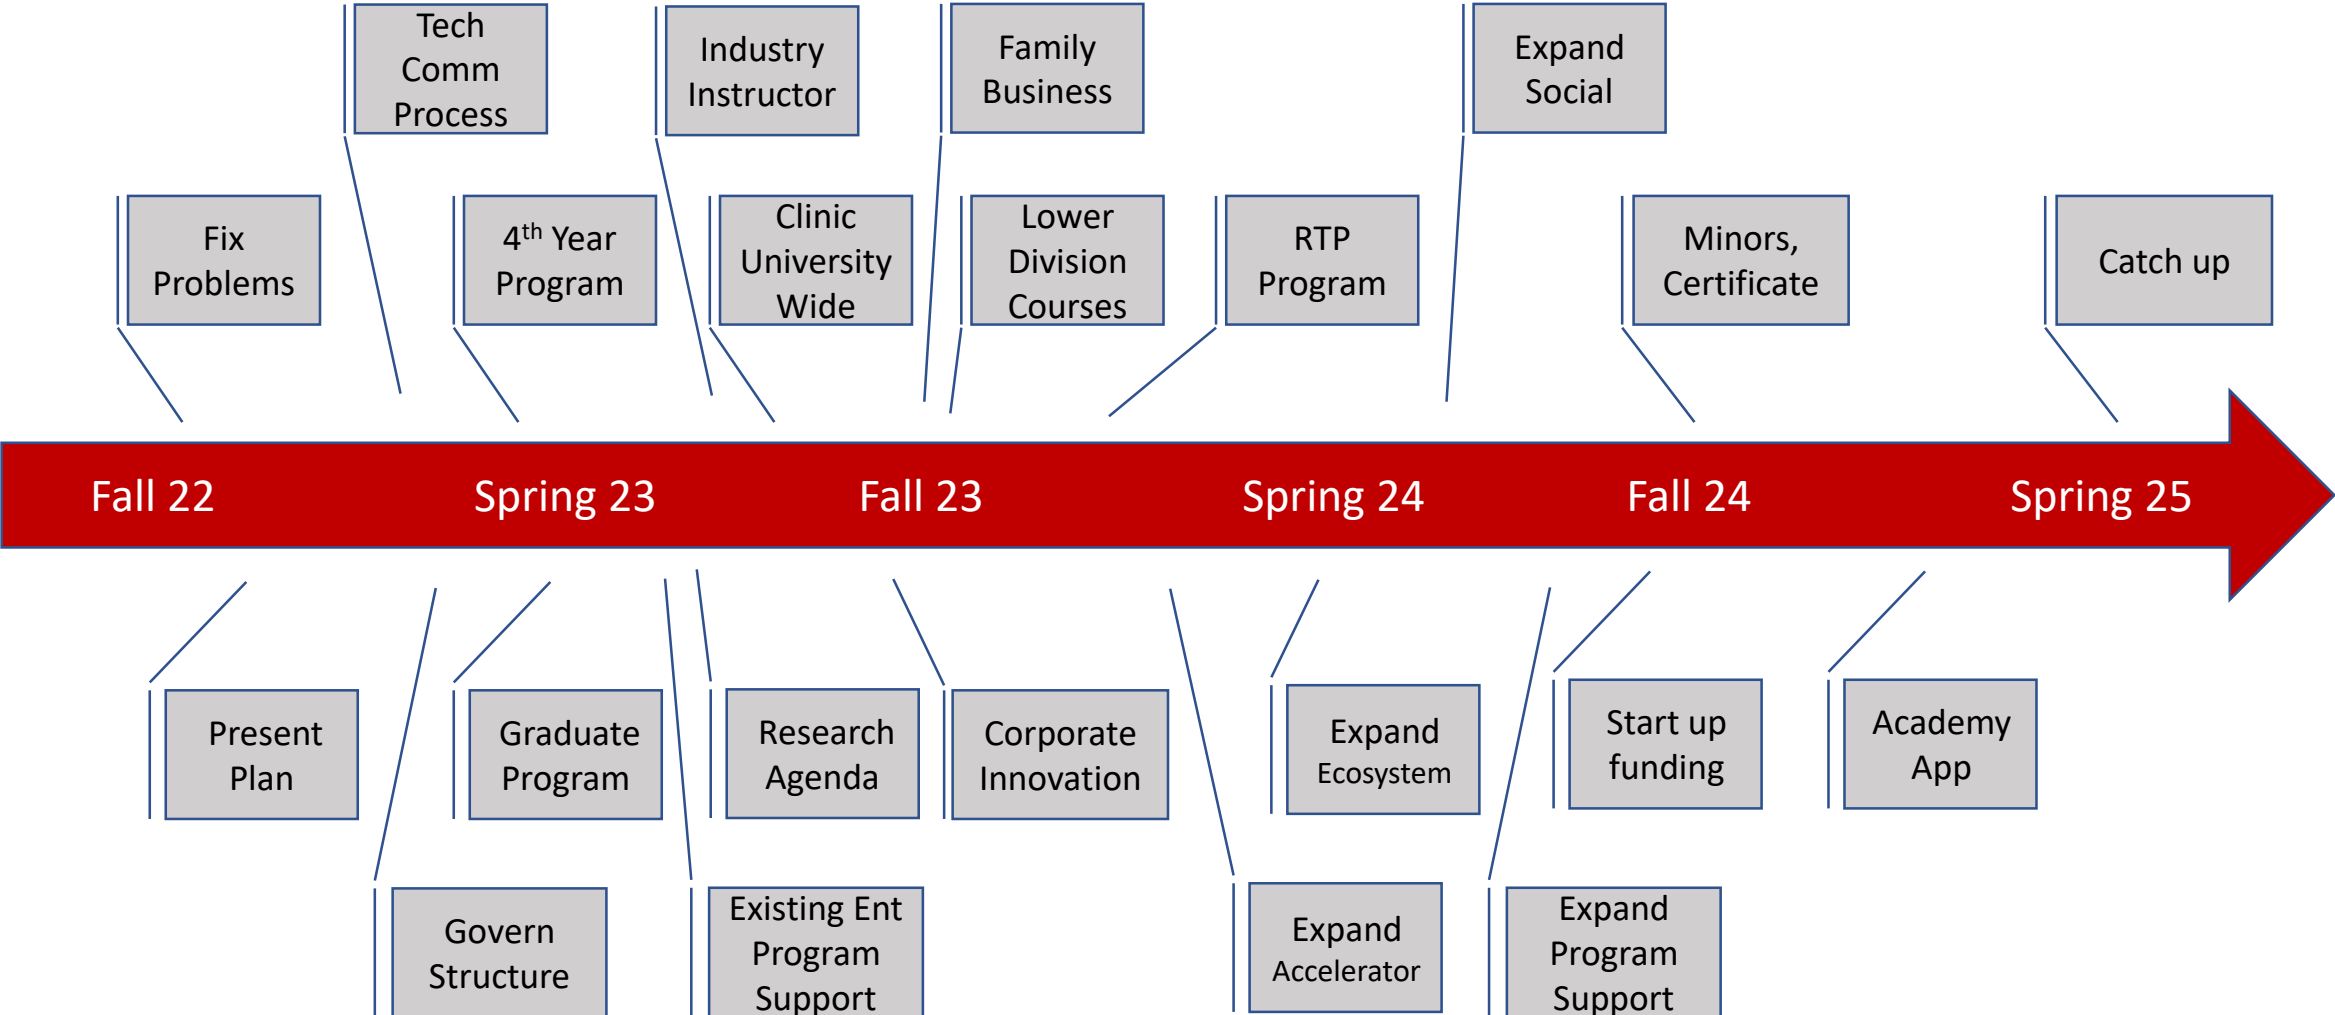

Entrepreneurship is an Integrated Practice
