

2022_10_25 meeting

Travel authorization: what is our role

- younger faculty don't always have grasp of procedure
- It would save trouble if departments regularly communicated to new faculty what travel authorization procedures are in that unit.
- needs to be communicated (to academic unit)

Payment for extra duties (teaching overload) have caps, not inflation adjusted. Caps in Poole College? May differ in other departments/colleges.

When a department needs to take on additional students (Health and Exercise Studies), the department may not be appropriately compensated. Big increase in class sizes overall since Covid.

Funding for students will eventually be the same for DE and in person.

Housing.

The Chancellor is aware, no commitment.

Perhaps, the issue is compensation.

Pack Essentials used by all members of the university community. Lack of affordable housing is an issue beyond university.

- formerly dorm room was 20% of tuition and tuition was negligible
- housing costs lower then, dormitory cheaper than rent outside university
- new subsidies needed now

Increase awareness in departments and colleges - get data.

Data on how many students from various groups seek resources.
