I. GoCoRe Survey

- A. The preliminary results from the Senate Service Incentives Survey were discussed (both positive and negative comments). ROUghly 15% of the faculty population took the survey thus far.
- B. On 11/28/23, GoCore will have 5 minutes to update the Faculty Senate regarding this semester's IOC progress (with the main focus being the Senate Service Incentives Survey). For the update we plan to:
  - 1. Redefine the goals of the Faculty Senate Service Incentives Survey.
  - 2. Report the survey results (# of respondents & top choice incentives (focusing on the top 2 clear incentives)).
  - 3. Ask for feedback & once the Incentives summary is complete ask the senate if an action item to move the incentive request to the Provosts office is approved
  - 4. We also plan to encourage a more formal "Welcome Package" for new senators. Items recommendations to include in this package (other than the standard current items) will be requested. We will request a name plaque for the senators office door as part of this package.

II. Faculty Handbook

- A. Follow up with Nancy Whelchel to get t-statistic p-values for means comparisons

New Business:

- I. Herle: can GoCoRe look into communication and process regarding meetings
